

# Firmware Release Note

<b>Model: K4350 Series</b>	<b>Date: 28-Dec-2019</b>
----------------------------	--------------------------

V5.H6.00 FW addresses total of 4 issues.

- Major Changes

- 1) Removed the functionality to print the barcode.
- 2) For Gov models, the A4 Demo page is changed to add more information.
- 3) Fixed, the SNMP OID status for HCF tray is being displayed on the panel.
- 4) Fixed, inner finisher folding and not stapling the last page when printing odd number of copies issue.

Please upgrade the FW with V5.H6.00 if any one of the problems below need to be resolved.

Version	Category	TSP ID	Division	Change Description
<b>V5.H6.00</b> (2019-12-28)	Problem		KOREA	Removed the functionality to print the barcode.
	Problem		KOREA	Fixed, inner finisher folding and not stapling the last page when printing odd number of copies issue.
	Problem		KOREA	For Gov models, the A4 Demo page is changed to add more information.
	Problem		KOREA	Fixed, the SNMP OID status for HCF tray is being displayed on the panel.

## Software Component Versions

System Firmware	V5.H6.00
Main FW Version	V11.01.13.00_09-20-2019
XOA Web	1.4.33
UP	1.17.34_(20171218171009)
Engine Firmware	V3.00.31
File System Version	FS_V14.03.06.21.13
SCB(Scan,Fax) Version	V3.00.05.05
Boot Rom Version	V13.10.00.00.92-04-05-2019
UI Firmware	V5.18.50.12.00_19040115
ADF Firmware	00.03.40
Tray1	V3.00.31
Tray2	V3.00.31
Tray3	V4.01.04
Tray4	V4.01.04
finisher(Inner) Version	V01.56
finisher(3K) Version	V02.67
Booklet Version	V02.33
Hole Punch Version	V04.06
PCL5CE	V8.22_170906
PCLXL	V11.00.87
PS/PDF/XPS	V6.21.01.62.02.03_170415

## Image Quality Tables

EP	V3.08
Fuser	V1.17
Toner	V1.28
TR	V0.35
Print CMS	V1.4.1KR
Copy CMS	V1.6.4KR
Scan CMS	V1.83
Print IEM	V0.1
Copy IEM	V1.41

## Update dependency

- If the previous firmware version is lower than V5.C6.03, please install Service Pack first, which is needed to prevent delay in upgrading all UI firmware
- If System FW version is prior to V5.C6.13 (Engine version V2.00.13), then update the FW with the following procedures:
1) Disconnect 2K, 3K-Finisher
2) Upgrade FW
3) Connect 2K, 3K-Finisher
4) Upgrade FW again
5) Confirm 2K, 3K-Finisher version

## Solution Compatibility Table

( K4350 : V5.H6.00 )

Category	Solution Name	Solution Version	V5.H6.00	Verified F/W Version

BCPS	CloudConnectorCore	2.50.008	⊙	
	DocumentWorkflowCore	2.50.007	⊙	
	PrintingSecurityCore	2.50.009	⊙	
	SecureLoginCore	2.50.006	⊙	
	UsageTrackerCore	2.50.007	⊙	
	XOA-WEB Enabler	2.00.003	○	V5.D6.16

	Omtool AccuRoute	1.0.0.689 ( Server : 2013(Build 5))	○	V5.D6.06
	PaperCut	1.1.0 ( Server : 16.4 (build 38954))	○	V5.F6.01
	PrintFleet Cloud Embedded DCA	1.1.249 ( Server : 3.6)	○	V5.E6.02.02.060911
	Ringdale FollowMe	1.1.2.9 ( Server : 6.1.0.103)	○	V5.D6.06
	SafeCom	010.24.23 ( Server : 10.520.10.35)	○	V5.F6.05.03.092016
	SafeQ Embedded Terminal	1.0.0 ( Server : C.0.18.002)	○	V5.D6.16.03.120609
	Scanner Vision	1.0.6 ( Server : 6.2.0.270)	○	V5.D6.06
	Scanshare Essentials	1.5.15.167 ( Server : 4.0.5)	○	V5.D6.06
	Ubiquitech Easy & VDMS	1.5.3-rel3 ( Server : 5.0.0-rel [ca91b])	○	V5.D6.16.03.120609
	e-Paper Sentinel	5.0.7 ( Server : (blank))	○	V5.D6.06
	Prism ScanPathTM	1.0.49 ( Server : 2.5.0.29)	○	V5.C6.05
	SmartUX	Nuance unified client	1.0.0.606 ( Server : 5.7.28.6490(CAS:5.7.28.6490, APD : 7.0.4.0))	⊙
PrinterOn	PrinterOn Branded Agent	2.03.003	○	V5.F6.05.03.092016

- ⊙ A solution has been verified and MUST be compatible with the releasing F/W version.
- Previously the supported solutions have been tested and verified with the version specified in the "Verified F/W version" row in the table.  
The required test has been conducted on this FW version to ensure the backward compatibility with "Verified F/W version".

#### FW Release History

Version	Category	TSP ID	Division	Change Description
V5.G6.01.02.050715 (2019-05-30)	Problem		KOREA	Fixed, XSS weak point of Samsung models.F10:H22
	Problem		KOREA	Fixed, slow UI and slow copy feature.
	Problem		KOREA	Fixed, IPv6 manual address for fdxx as prefix.
	Problem		KOREA	Fixed, S5-3116 if no hardware failure.
	Problem		KOREA	Implementation of new requirement to enhance the SWS security.
	Problem		KOREA	Added more flexible configuration to control device quota.
	Problem		KOREA	Fixed the IDCOPY parameter getting reversed while submitting of job.
	Problem		KOREA	Fixed, the fax not working while in power save mode.
	Problem		KOREA	Fixed, to print all documents in queue from BCPS when documents come from MacOS.
	Problem		KOREA	Fixed, conflict between Front Back in Cover and Fold Staple in Booklet.
	Problem		KOREA	Fixed the issue of device going to home screen after login using GeniusMFP solution.
	Problem		KOREA	Fixed, Manual Reset of device quota reset policy.
V5.G6.01 (2019-01-30)	Problem		KOREA	Fixed the UI-2316 Abnormal ADC error (Fuser Thermistor Error and Low heat error)
	Problem		KOREA	Fixed the UI slowness issue which use to happen after adding more widgets at home and machine was not rebooted for 2 to 3 days.
	Problem		KOREA	Fixed the issue that image log not sent to Printing Security Solution Server when fax images received through Line2

<b>V5.F6.05.03.</b> <b>092016</b> (2018-11-01)	Problem		DEV	Fixed the issue of WSD Print installation with Win10 (1703/1709/1803)
	Problem		DEV	Fixed the Google Address Book stay signin issue and showing previous user contacts
	Problem	SIE174695	EMEA	Fixed the issue of Box app Authentication
	Problem		DEV	Fixed MFP slow down issue with mDNS
<b>V5.F6.05.02.</b> <b>072419</b> (2018-08-01)	Problem	SIP68753 TP174000	EMEA	S1-2452 Error issue was fixed by improving the DB recovery logic
	Problem		DEV	When SNMP Community Web Service is called via HPSM application to add/edit/delete the community names, a side effect is observed that SNMPv3 is getting disabled. This side effect is fixed
	Problem	SIP68582	AMS	Fixed SMB 2/3 job failed issue due to excessive permissions requested
	Requirement		DEV	SNI(Server Name Indication) is added by new requirement for Google Cloud Print servers when SSL enabled.
	Requirement		DEV	New feature implementation for configurable 'SSL/TLS' protocols and ciphers option. Security level configuration can be done according to user requirement from SWS.
	Problem	SIE173360	EMEA	Fixed booklet fold & staple option is not working when printing multiple copies from stored job
	Problem		SQE	The Punch option doesn't take effect after changed it from 2Punch to 4Punch under Box->Print->print options. This is fixed
<b>V5.F6.05.01.</b> <b>041619</b> (2018-05-02)	Problem	TP1790KD	SEAU	'Error 403' caused when connecting to Google Addressbook due to Google policy changes is fixed.
	Problem		DEV	The intermittent stoppage caused when creating Hibernation Image when https is enabled is
	Problem		DEV	Inaccurate range value associated with Scan background density from Nuance Unified client
	Problem	TP17A06W	SEA	The issue that file stored at Box App is not intermittently deleted at the device where HDD Image
	Problem	SIP65410	SEG	The issue that Ext.Phone setting in service mode revert back to initialized value when dual Fax
	Problem		SEBN	Login speed has improved when using Nuance Unified client.
	Problem	SIP65701	SEG	The issue that certificate related setting value is reset as default after changed F/W version
	Problem	SIP64544	SEAU	The issue that fuser detection fails due to intermittent timing in case that a user sends a job when
	Problem	SIE154757 SIE156425	SAU	The issue that email is not delivered under ScantoEmail in case that special characters(ex ',') are included in sender's user name is fixed.
	Requirement	SIE157066	EMEA	New certificate of Google Cloud server is applied.
<b>V5.F6.05</b> (2018-03-23)	Problem	-	KOR	Changes in condition on Fuser Low Heat Error Check.
	<b>V5.F6.04</b> (2018-02-12)	Problem	-	KOR
<b>V5.F6.01</b> (2017-10-27)	Problem	-	SEG	Fixed an issue of unintended color being printed because of wrong processing of 1x1 size pattern in PCL5 job for color printers.
	Problem	-	KOR	Fixed an issue of black text printed as white in specific application for color printers.
	Problem	TP17801L	SEBN	Fixed an issue of the reset database menu being displayed at booting phase by intermittent
	Problem	TP1780HF	SEUK	Fixed an issue of MIB info being displayed as 0 when inquiring the forward roller MIB info of
	Requirement	-	SEF	LUI default screen is changed to Kiosk home screen when FDI and Smart Printing Kiosk app are used together.
<b>V5.E6.02.04.</b> <b>090410</b> (2017-09-20)	Problem	TP1720J901	KOR	Allow Korean characters in the Scan to SMB path.
	Problem	TP173078	SEUK	Fixed an issue of black text printed as white in specific application for color printers.
	Problem	-	DEV	Fixed an issue of iterated login and logout when performing NFC authentication on device,
	Problem	TP1740C3	SEA	Fixed an issue of slow booting or WIFI disconnection when power cycled by soft power button
	Problem	TP174000	SEUK	Improve DB(Database) error recovery routine for damaged record only instead of DB
	Problem	TP1750JO	SEAU	Fixed an issue of a scan job being stopped when adding a document while the last document
	Problem	TP176005	SEI	Fixed an issue of the memory clear button in the service menu not being activated after power on
	Problem	TP1750OA	SEG	Allow compact PDF option in XOA-E API for ISV solutions.
	Requirement	-	DEV	The Blue Angel 2017 ready.
	Problem	TP17704P	SEG	Fixed an issue of WIFI direct not being connected when WIFI/Bluetooth module(SL-NWE002X)
	Problem	-	DEV	Fixed an issue of a fuser replacement message not disappearing even though turning off fuser
	Problem	-	DEV	Fixed an issue of the end of developer unit life message(C8-1130) not disappearing even
Problem	TP177025	SEHK	Fixed an issue of a Fax Rx job pending when all received pages can not be decoded by corrupted data.	
Problem	TP16C0JD	SEIL	Fixed an issue that the destination of Scan Widget was displayed as None after the Scan Widget	
Requirement	TP1710KL	SEASA	A new API was provided to hide buttons on the navigation bar of UI such as back/home button.	

V5.E6.02.02. 060911 (2017-06-20)	Requirement	TP1730AG	SEPOL	Remove destination email address in the PDF file generated from Scan to email.
	Problem	SEA	SEA	Fixed a problem where the Hole punch menu was not visible in the Copy App when Hole punch
	Problem	TP17309T	SEA	Fixed an issue where color copier with booklet finisher got outbin full while printing B/W
	Problem	TP1710IX	SEG	Fixed an issue where one of continous printing jobs was not printed intermittently due to
	Problem	TP1670LC	SEA	Added a new settings which specifies a default folders of Box App.
	Problem	DEV	DEV	Fixed an issue that sometimes a job was not canceled and remained cancelling state until
	Problem	TP1740DR	SEUK	Fixed an issue that when a large number of print jobs were saved in the Box, some of jobs were
	Problem	TP17508F	SEG	Fixed an issue that even "booklet folding position offset" settings for A3 or Ledger(11"x17") was
	Problem	TP1750CC	SEG	Fixed an issue of stripped patterns on the part of image of PCL5 job which consists of mono data
	Problem	TP1750I4	SEA	Fixed an issue where the finishing option was cleared to default when printing a saved booklet
	Problem	TP17600R	SEG	Fixed an issue where finishing option is cleared to default when the job was rescheduled by paper
V5.E6.02.01. 042409 (2017-05-08)	Requirement	TP1670QW	SEA	Added Bates Numbering feature to the copy app. Prefix, Suffix, and Number of Digit (up to 9 digits) settings are added to the Copy > More > Stamp menu
	Problem	TP16802X	SEA	Fixed an issue of setting value reset when program was executed after setting a booklet option in
	Requirement	TP16A0SB	SEUK	Added a Jam Count Rreset feature to the service mode.
	Problem	TP16B0KD	SEG	Fixed an issue where the separator page was stapled together with the original printout when
	Problem	TP16C0JQ	SEA	Populate recipient name in front of "From" email address at the Scan to email function.
	Problem	TP16C003	SEG	Fix an intermittent issue that partially damaged PDF file is generated by color scanning with
	Problem	TP171017	SEA	Fixed not to staple every single page for multiple printing of one page.
	Requirement	TP16909R	SEBN	Supported a special character '\' in the LDAP search option.
	Problem	TP16C0EG	SECH	Added a function to automatically fill user email address registered in the job account (JAC) in
	Problem		DEV	Even an user changes filename format of Scan&Send > Scan Options > Filename, real date &
	Problem	TP1710MR	SEA	Switch to fax sending job by deleting email address when entering fax numbers if email was
	Problem	TP1720G8	SEG	Fixed an issue that remaining error handling videos were not displayed when one of the
	Problem		DEV	Fixed the black and white scan counts to be increased for scanning job with setting the color
	Problem		DEV	Fixed not to print when user quota was exceeded while copying and printing simultaneously.
	Requirement	TP1660L0	SEUK	Added a function to select and take address directory from LDAP.
	Problem	TP1730EW	SEG	Fixed to select an item from LDAP result when Server tab is set as default at Scan & Send app's
Problem	TP1710GG	SEBN	Fixed an issue that when a PDF document created by a specific PDF generation tool was printed	
Problem		DEV	Improve double-sided printing speed of Executive paper size.	
Problem	TP1730KE	KOREA	Fix an error in PDF direct printing by abnormal font data included in the PDF file which is generated by specific PDF creator application.	
V5.E6.02 (2017-03-24)	Problem	TP16C0KM	SEAU	Fixed an issue of filtering an e-mail as junk mail on Gmail server if the default message was used in the mail text and the e-mail recipient was Gmail during the scan to Email job.
	Problem		DEV	Fixed an issue of displaying devices with the same MAC address at Fleet Admin Pro's device list
	Problem	TP1710BP TP16707Q TP172037	SEA SEDA SEASA	Fixed an issue of initializing Job accounting setup info. created at FleetAdminPro when rebooting the device at SWS or FleetAdminPro.
	Problem		KOREA	Fixed an issue of intermittent disappearance of PC list by DB corruption when using Scan to PC.
	Problem		SEF	Fixed an issue of unworked SFE behaviors when applying SFE27, SFE54 setup at issued
	Problem	TP1720A7	SEPOL	Fixed an issue where a duplex-scanned document was crumpled in a Z shape in paper exit at
	Problem		DEV	Fixed an issue of admin password change as default when enabling SFE 019 function at issued versions. Issued Version : MX7 Vx.D6.29.02.XXXXXXX ~ Vx.D6.30.04.XXXXXXX MX4 Vx.D6.16.02.XXXXXXX ~ Vx.D6.17.04.XXXXXXX M5370 V5.D6.15.02.XXXXXXX ~ V5.D6.16.04.XXXXXXX M4580 V5.D6.14.02.XXXXXXX ~ V5.D6.15.04.XXXXXXX
V5.D6.17.04. 011308 (2017-01-23)	Problem	TP1670DJ	SEA	Fix an issue that destination information disappears at program execution after address book
	Problem	TP1670LQ	SEA	Allow mixed size to be default for original size value in the Copy / Send App, and keep the
	Requirement		SEUK	Fax paper source tray setting is added to SWS.
	Problem	TP1670UW	SEI	Add "[, ], ^" to the folder name input function at Scan to SMB feature.
	Problem	TP1680HV	SENA	Add Umlaut charset to the folder name input function at Scan to SMB feature.
	Problem	TP1690AR	SEA	Fix issues at Air print
	Problem	-	DEV	Improve G3 fax transmission / reception quality and retry job protocol in VoIP environment.
	Problem	TP16A0B5	SEA	Fix a problem where the machine reboots when using small paper that is not supported by DSDF.
	Problem	TP16B017	SEG	Use a temporary file name while scanning and saving the file, and rename it after the saving is
	Problem	TP16B0I7	SECA	Fix an issue where JAC enable / disable do not work by job type via Fleet Admin Pro.
	Problem	TP16B0LX	SEPOL	Fix a problem that causes the device to freeze when the scanned image is skewed from the
	Problem	TP16B0ON	SEI	Fix a problem that cause performance degradation when using counter widget.
	Problem	TP16B0SM	SEF	Fix an issue where the total sent page is incorrectly displayed in the fax sent report when
	Problem	TP1690PR	SEG	Fix machine stop when setting the Compact PDF option and changing color setting to Mono in
	Problem	TP16A0OQ	SEA	Correct the problem that certain SFE functions are turned off after HDD recovery.
	Requirement	-	DEV	Add HDD defect check function in HDD recovery mode screen.
	Requirement	-	KOREA	Improve fax widget button size and space between buttons for user convenience.
	Problem	TP1670VH	SEG	Fix the problem where scan data transfer is slowed down for a sync problem when there are a lot
	Requirement	-	SEVT	Support Vietnamese at UI.
	Problem	Q1612_0069	KOREA	Correct the problem where the abnormally large wrong value of impression counter is displayed
Problem	-	DEV	Fix a false alarm which misunderstands that IP conflict occurs from ARP protocol cache handle	
Problem	-	DEV	Fix the device stop when setting double-sided, 400% enlarge option in copy job.	
Problem	TP1690W6	SEF	Fixed several bouygues telecom issues.	
Problem	TP16B0CT	SEAU	Fixed the Searchable PDF not being generated when a certain complex pattern is recognized	

	Problem	TP16A0NJ	SEBN	Fixed the FR carriage hitting the frame when scanning 432mm media on the platten.	
	Problem		KOREA	Fixed the error page not being printed abnormally in the solution environment's printing case.	
	Problem	TP16B057	SEF	Fixed the Mono printer issue of job being canceled when the job was sent to color print driver	
	Problem	TP16B027	KOREA	Fixed the issue of quota not being reset at times when the device goes into the sleep mode at the	
	Requirement	TP1630R0 VO-1506- 000610 VO-1507- 000139	SEA SECA SEG	Developed a new app for full build job support ( The app will be released in the app center next Regular FW release officially).	
	Requirement	-	DEV	Developed a new Smart Scan app ( The app will be released in the app center next Regular FW	
	Problem	-	DEV	Fixed the Schedule Image Overwrite automatically changing from on to off when powering the	
	Problem	-	DEV	Improved screen transition speed between tabs on UI OOB app.	
	Requirement	TP164027	SEA	Modified the LDAP contact usernames to display either surname or given name.	
	Requirement	TP1640FF	SEA	Added a default contact selection feature between LDAP and local contacts in the Send app.	
V5.D6.16.03. 120609 (2016-12-08)	Requirement	TP1650OK	SEA	Added SSO support to allow LDAP search using Kerberos ID/PW.	
	Requirement	TP165011	SEG	Added the Borderless printing feature. (SFE56)	
	Requirement	TP1660JA	SEA	Added buckle adjustment feature in the service mode.	
	Problem	TP16611L	SEUK	Fixed the intermittently changing home screen setting issue with wifi enabled.	
	Problem	TP1670O8	SEA	Fixed the VNC connection issue when using a password with a certain character.	
	Problem	TP168030	SEA	Fixed the intermittent booting issue after a FW update fail.	
	Problem	TP1680K1	SEIL	Fixed the issue of VNC setting menu not showing correctly in Hebrew.	
	Problem	TP1670IC	KOREA	Fixed remaining roller counts showing as negative numbers in the Counthru environment.	
	Problem	TP168100	SENA	Fixed Swedish punch not working in a print job.	
	Problem	-	KOREA	Fixed imaging unit or toner cartridge being recognized as uninstalled at times.	
	Problem	TP1680P0	SEA	Fixed job stopping at times when printing using a driver with a 3-hole punch option selected.	
	Problem	TP169064	SENA	Fixed the printing error when using remote pull printing in the Printing Security Core solution.	
	Problem	TP1680JH TP1670W4	SEAU	Fixed fax reception stopping with an invalid caller ID coming through.	
	Requirement	TP1690AQ	SECA	Added Letter/Legal MSO fax reception functionality.	
	Problem	TP1690MM	SENA	When selecting fixed the menu display revert Swedish or Hungarian language, the device storage	
	Problem	TP1640A0	SEAU	When entering D or d after connecting external keyboard to USB, input value is not displayed	
	Problem	TP16A020	SEUK	When pushing start button before From/To values of send app are prefilled, send job is not	
	Problem	TP16A0FH	KOREA	SFE feature setting value changes to default from time to time.	
	V5.D6.16.02. 102513 (2016-10-31)	Requirement	SR-1508- 000118 VO-1508- 000350	SEA	The total user accounts increased from 500 to 2000.
		Fixed issue	TS-1512- 000029	SEAU	Intermittent job pending issue during scanning a large volume of media with compact PDF as an option was resolved
		Requirement	TP1640K502	SEG	Printing on a number of paper types including Letterhead / Punched / Preprinted was improved.
		Fixed issue	TP16500E02	KOREA	Corrected job pending issue during duplex V folding in MAC OS.
		Fixed issue	TP1660HG01	SEG	Modified mistranslation in German
Fixed issue		TP1650R801	SEUK	Resolved the issue of which the print job is always printed on A3 regardless of what user selected	
Fixed issue		TP1660GU01	SEA	Intermittent print job stoppage when user processes complete after DSDf jam.	
Fixed issue		TP1660NE01	SESA	Resolved the issue of which reduced information, which was saved when program is generated,	
Requirement		TP1650IT01	KOREA	Added a feature that can allow FAP monitoring of inactivation function of USB memory stick.	
Requirement		TP1650PP01	KOREA	Added an option that enables changing the priority order of multi-use paper tray during copy,	
Fixed issue		TP1660VG01	SEA	S5-3111 error not being displayed in error report was fixed.	
Fixed issue		TP16616201	SEDA	Fixed the issue of which the printer continues to print from a printable tray rather coming to a	
Fixed issue		TP16703Z01	SEA	Took out the description about features that are not applied to Help app.	
Fixed issue		TP16705401	KOREA	Resolved the issue of system user being logged on instead of an actual print user when the user	
Fixed issue		TP16701V01	SEA	Fixed the issue of +Me Box still running even when Box Application is disabled.	
Requirement		TP1630TE03	SEF	Added an option to maintain Jam animation until error is cleared.	
Fixed issue		TP16709701	SEBN	Secured a compatibility of PDF/A Scan file with ISO 19005-1.	
Requirement		TP1670DA01	KOREA	Added a feature to allow use or delete scan/ transmission destination.	
Requirement		TP1670PP01	KOREA	Added a function that aggregates usage data within a certain period of time selected by Counter	
Fixed issue		TP16601Y	SEUK	Fixed user being automatically logged out while using MagStipe Readers login.	
Fixed issue		TP16502A	KOREA	Improved the issue of the system slowing down in DHCP mode without DHCP server	
Fixed issue		TP1680J3	SECA	Fixed MP tray setting value is changed after Power on/off in case of envelop size.	
Fixed issue		TP16706H	SECH	Fixed slow printing issue when the set enables JAC Fleet Admin.	
Fixed issue	TP16704Z01	SEA	Fixed intermittent jam when legal media is loaded in Tray 4.		
	Requirement	VO-1509- 000191 SR-1507- 000561	SEG SEF	Adding a feature to align the secure job list in LIFO and FIFO forms as preferred by user.	
	Requirement	TP1650L8	SEDA- SIMPRES S	Adding a feature to turn on/off alarm for toner status when it's low.	
	Requirement	SR-1507- 000568	SEG	Adding a selecting feature for a paper tray and a media type using a PjL command.	
	Requirement	SR-1507- 000568	SEG	Adding a feature of sending state information only when the entire job is completed for any job linked to VPSX server.	

V5.D6.16.01.  
081720  
(2016-08-19)

Requirement	SR-1506-000840 VO-1410-000185	SEBJ SEA Korea	Adding a PC scanning feature using a USB cable.
Requirement	TS-1508-000397	SEDA	Supporting UBS flash drive in NTFS format.
Requirement	SR-1509-000477	Korea	Adding a feature for making a document box invisible to users who login as SWS when admin disables the box.

	Fixed issue	TS-1602-000036	SEA	Scan Adjustment was modified to work according to the default paper size (A4 or Letter) of a country/region in which the machine will be used.	
	Fixed issue	TS-1601-000186	SEA	An output tray selected for incoming faxes changes back to the default tray after waking up in a power save mode.	
<b>V5.D6.06</b> (08-Jan-2016)	Add Func			Support function to create "Web page" shortcuts on the main UI.	
				Support Scan ACS Function	
				V folding support for print jobs.	
				Added PIN only authentication mode.	
				Skip Blank Page feature for Scan/Copy implemented.	
				Error code and description improved. Provides detailed information.	
				Job Promotion Activation Feature implemented.	
				If 'Staple Empty' error added. The User can select Continue or Hold.	
				Add Officio size for Copy, Scan.	
				Scan to SMB with browsing.	
	Fix defect				The paper option is displayed Custom size on Apple device.
					ID/PW values for Job Accounting are missing when user sets 'Preset' feature supplied by O/S.
					The machine stops intermittently when the Customer is using the copy Widget.
					If Application Authentication is enabled, previously created short-cut does not work.
					Value of counter app is wrong for specific period.
					Not able to send fax for more than 15 recipients.
					The output has wrong page order of booklet.
					You may see that LCD is black after wakeup by touch or wakeup by jobs.
					File can not be deleted from Box.
					Fax is printed from incorrect tray after power save.
<b>V5.C6.16</b> (01-Sep-2015)	Add func.			Support Korean language file name on ScanToPC menu.	
				Supply security patch for Apk integrity.	
	Fix defect				Fix defect that user can't cancel current job sometimes.
					Fix defect of showing S5-3111 error on UI after sending print job while machine stays in sleep
					Fix defect that machine will not wake up from UI sleep mode in spite of wake up event.
					Fix defect that the overwrite function doesn't work when import address book CSV file under
					Fix wrong translation in Finnish.
					Fix Scan & send App to launch properly.
	Add func.				Fix defect of not deleting job list in UI.
					Fix defect that XOA-Web login page issue. (showing home page instead of Xoa application
Add func.				Supporting the filename in send UI allowing to enter currencies.	
				Fix defect of not working copy widget.	
Add func.				Add function to Send App of removing destinations after the Job is started.	
				Fix defect that the Send App was crashed while launching the program with Auto start option,	
Add func.				Improve Inner Finisher feature.	
				Fix defect of 3K Finisher error.	
Fix defect				Fix defect of rebooting by internal buffer overrunning.	
				Fix defect of rebooting and broken image on 2-2 copy.	
				Fix defect of broken image on duplex print (A5 SEF 2 - 2 book copy To MP Tray with Finisher).	
				Fix defect that when user adds manual route entry in routing table through SWS after reboot,	
Add func.				Add function of increased Font Size to 26 DP in Send application.	
				Fix defect of fan control fault.	
Fix defect				Fix file name issue of Korean character in ScanToPC.	
				Fix defect that traditional Chinese is not applied in Settings.	
<b>V5.C6.12</b> (09-Jul-2015)	Fix Defect			TC Calibration always perform at every power on or front cover open/close.	
				PowerSave is not working after Put down lifted ext. phone.	
				If a job is printing using in tray, it sometimes loses its pages when there is not enough sheets or paper for the job.	
				Machine rebooted very very rarely at receiving in case Machine is turned on by soft power on.	
				For a Copy job, Original size detection is failed in case of ADF open.	
				Copy Save to box -> Store and print file name overwrite issue.	
				Scan to USB job is not happening after OHD Job.	
				SWS set 400% , Copy show 400 % . but output paper is 100%.	
				App crash is observed if user taps on to the UI while image loading is on progress.	
				Fix not for launching Send App.	
				AMPV Data fault.	
				Program shortcut is seen after wakeup from sleep(log-out state).	
The remain on UI is different from the one on report.					
PaperCut flicking issue.					

		<p>Fax Widget hanged and need POPO when continuous jobs are performed.</p> <p>Fix defect of disappearing Short cut icon after POPO.</p> <p>Fix Fax widget issue</p> <p>1.
